

JEFFREY G. STALLER, D.D.S.

Dear Patients,

It is with both sadness and joy I am announcing my retirement from the practice of dentistry. For over 40 years I have been in private practice and have formed many wonderful relationships with patients, staff and colleagues. I am grateful for the commitment you have shown regarding your dental health and will miss the daily interactions with both you and my staff. It has been my pleasure knowing so many exceptional and interesting people, but my retirement will allow me to spend more time with my family and do all the things I so enjoy.

It took some time finding an individual who is competent and concerned with practicing quality dentistry to fill the void left by my departure. From a professional perspective Dr. Pathik Shah will continue providing dental care with the excellent standards our office has always maintained. He exhibits a commitment to quality family dental care and strives to utilize the most modern techniques available. He continually updates his dental knowledge and training through continuing education courses.

Dr. Shah is a graduate of Boston University Goldman School of Dental Medicine and has been in private practice since graduating in 2014. He is married to Sonal Patel and they have a 1-year old daughter. He strongly believes in educating his patients and providing all the available treatment options. As our practice has always been, he too, is very patient focused. I am confident leaving you in his very capable hands.

Additionally, Dr. Ronald Gandel will continue in the office maintaining his high standards of dental treatment. He will be there to answer any and all of your dental concerns.

I have greatly valued our relationship and thank you for your loyalty and friendship over the years. It has been my great pleasure providing for your dental needs.

Best wishes for your future health.

Dr. Jeffrey G. Staller

Dear Patients,

Greetings! I am Dr. Pathik Shah, DMD and I am very grateful to step in following the retirement of Dr. Staller. I consider it a great privilege to provide excellent dental care to Dr. Staller's wonderful patients going forward alongside Dr. Gandel and the staff.

Dentistry is an exciting and ever-growing field, with techniques improving by the day. I truly love being a dentist and am passionate about advancing my clinical skills to provide the highest caliber comprehensive care to all my patients. After earning my Bachelor of Dental Surgery degree from India, and working for a few years, I decided to pursue further education in the USA to advance my knowledge. I completed my dental schooling at the prestigious Goldman School of Dental Medicine, Boston University. I regularly attend continuing education courses to keep my knowledge updated. I am a member of the United States Army reserve and am very proud to serve the country. I strongly believe in giving back to the community. I participate in various community events.

In the transition to new leadership, we are renaming our office to Prime Dentistry. I am very excited to introduce enhanced, cutting-edge dental services while providing the same level of personalized attention and care offered by Dr. Staller. Our goal is to provide a delightful experience for you and your entire family while making dental care more accessible. Therefore, we are going to upgrade office communication technology, so, if you choose to, you can have the ability to conveniently book appointments online, complete medical history and consent forms securely from your mobile device, ability to schedule teledentistry visits for post-treatment follow up visits, and more. We will provide everyone with affordable payment plans with or without credit check requirements and offer an in-house premier membership plan exclusive to patients with no dental insurance.

I look forward to building genuine, lifelong relationships with you while providing compassionate dental care. Though our ownership has changed, our core services and commitment to excellence have not. We will work very hard to ensure that we will exceed your expectations as you receive the best dental care possible.

On behalf of the entire Prime Dentistry team, I thank you for allowing me to serve you and can't wait to meet you at your next visit.

Sincerely,

Dr. Pathik Shah
